FORWARD-LOOKING STATEMENTS

This document contains “forward-looking statements”. All statements other than statements of historical fact are “forward-looking statements” for purposes of federal and state securities laws, including, but not limited to, any projections of earnings, revenue or other financial items; any statements of the plans, strategies and objections of management for future operations; any statements concerning proposed new services or developments; any statements regarding future economic conditions or performance; any statements or belief; and any statements of assumptions underlying any of the foregoing.

Forward-looking statements may include the words “may,” “could,” “estimate,” “intend,” “continue,” “believe,” “expect” or “anticipate” or other similar words. These forward-looking statements present our estimates and assumptions only as of the date of this report. Accordingly, readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the dates on which they are made. Except for our ongoing securities laws, we do not intend, and undertake no obligation, to update any forward-looking statement. Additionally, the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 most likely do not apply to our forward-looking statements as a result of being a penny stock issuer. You should, however, consult further disclosures we make in future filings of our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

Although we believe the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and inherent risks and uncertainties.

AVAILABLE INFORMATION

We file annual, quarterly and special reports and other information with the SEC that can be inspected and copied at the public reference facility maintained by the SEC at 100 F Street, N.E., Room 1580, Washington, D.C. 20549-0405. Note 1 – Nature of Business and Significant Accounting Policies

Nature of Business

ALL SOFT GELS INC. (“the Company”) was incorporated in the state of Nevada on November 18, 2013 (“Inception”), to market a soft gel Kre-Alkalyn capsule.

All Soft Gels, Inc. is a production stage company. All Soft Gels, Inc. has commenced its operations of having one product, a soft-gel capsule named All Soft Gels Kre-Alkalyn Liquid Gels, manufactured by an unaffiliated outside provider (Soft Gel Technologies, Inc. (SGTI) and the Company has one major order distributed and sold over 400 Bottles as of the date of this report.

Basis of Presentation

The financial statements have been prepared in accordance with United States generally accepted accounting principles and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation. All such adjustments are of a normal recurring nature.

The Company has adopted a fiscal year end of December 31st.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and equivalents include investments with initial maturities of three months or less. The Company maintains its cash balances at credit-worthy financial institutions that are insured by the Federal Deposit Insurance Corporation (“FDIC”) up to \$250,000. Deposits with these banks may exceed the amount of insurance provided on such deposits; however, these deposits typically may be redeemed upon demand and, therefore, bear minimal risk. As of June 30, 2017 and December 31, 2016, the Company had no cash equivalents.

Income Taxes

The Company accounts for income taxes using the asset and liability method, which requires the establishment of deferred tax assets and liabilities for the temporary differences between the financial reporting basis and the tax basis of the Company’s assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided to the extent deferred tax assets may not be recoverable after consideration of the future reversal of deferred tax liabilities, tax planning strategies, and projected future taxable income.

Fair Value of Financial Instruments

Under FASB ASC 820-10-05, the Financial Accounting Standards Board establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement reaffirms that fair value is the relevant measurement attribute. The adoption of this standard did not have a material effect on the Company’s financial statements as reflected herein. The carrying amounts of cash and accrued expenses reported on the balance sheet are estimated by management to approximate fair value primarily due to the short term nature of the instruments. The Company had no items that required fair value measurement on a recurring basis.

Revenue recognition

For revenue from product sales, the Company recognizes revenue using four basic criteria that must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management’s judgment regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company defers any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required.

Basic and Diluted Loss Per Share

The basic net loss per common share is computed by dividing the net loss by the weighted average number of common shares outstanding. Diluted net loss per common share is computed by dividing the net loss adjusted on an “as if converted” basis, by the weighted average number of common shares outstanding plus potential dilutive securities. For the periods presented, there were no outstanding potential common stock equivalents and therefore basic and diluted earnings per share result in the same figure.

Stock-based compensation

The Company adopted FASB guidance on stock based compensation upon inception at November 18, 2013. Under FASB ASC 718-10-30-2, all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. The Company did not issue any stock or options for services or compensation for the six months ended June 30, 2017 and June 30, 2016.

Our employee stock-based compensation awards are accounted for under the fair value method of accounting, as such, we record the related expense based on the more reliable measurement of the services provided, or the fair market value of the stock issued multiplied by the number of shares awarded.

We account for our employee stock options under the fair value method of accounting using a Black-Scholes valuation model to measure stock option expense at the date of grant. We do not backdate, re-price, or grant stock-based awards retroactively. As of the date of this report, we have not issued any stock options.

Recently Issued Accounting Pronouncements

There are various other updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on the Company’s consolidated financial position, results of operations or cash flows.

Note 2 – Going Concern

As shown in the accompanying financial statements, the Company has incurred recurring net losses from operations resulting in an accumulated deficit of \$130,014, cash of \$101, and a working capital deficit of (\$117,114) as of June 30, 2017. These factors raise substantial doubt about the Company’s ability to continue as a going concern. Management is actively pursuing new ventures to increase revenues. In addition, the Company is currently seeking additional sources of capital to fund short term operations. The Company, however, is dependent upon its ability to secure equity and/or debt financing and there are no assurances that the Company will be successful, therefore, without sufficient financing it would be unlikely for the Company to continue as a going concern.

The financial statements do not include any adjustments that might result from the outcome of any uncertainty as to the Company’s ability to continue as a going concern. The financial statements also do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 3 – Inventory

Inventory consists of soft-gel capsules produced by an independent third- party vendor. At June 30, 2017 and December 31, 2016, inventory consisted of the following:

	June 30, 2017	December 31, 2016
Finished goods inventory	\$ 2,280	\$ 3,420

Inventory is valued at the lower of cost or market, and is determined by the first-in, first-out method.

Note 4 – Convertible Notes Payable

In November 2016, the Company issued a convertible note payable to a third party investor for cash proceeds in the amount of \$35,000 (the “November 2016 Convertible Note”). The November 2016 Convertible Note was originally due 90 days from the date of the note. In May 2017, the maturity date was extended to June 30, 2017. In June 2017, the maturity date was further extended to September 1, 2017. At the discretion of the investor, this note is also convertible into common stock of the Company 90 days after issuance at a rate of \$0.002 per share, or a total of 17,500,000 shares. Since the conversion price of the November 2017 Convertible Note was above the stock price of \$0.001 established in recent transactions, there was no beneficial conversion feature or discount associated with this note. The Company calculated imputed interest at the rate of 8% per year on this note, and charged the amount of \$690 and \$1,388 to operations and credited additional paid-in capital during the three and six months ended June 30, 2017.

In January 2017, the Company issued a convertible note payable in the amount of \$34,600 (the “January 2017 Convertible Note”). This note was originally due 90 days from the date of the note. In May 2017, the maturity date was extended to June 30, 2017. In June 2017, the maturity date was further extended to September 1, 2017. At the discretion of the investor, this note is also convertible into common stock of the Company 90 days after issuance at a rate of \$0.002 per share, or a total of 17,300,000 shares. Since the conversion price of the January 2017 Convertible Note was above the stock price of \$0.001 established in recent transactions, there was no beneficial conversion feature associated with this note. The January 2017 Convertible Note was not funded until January 13, 2017, and therefore was recorded on the books on January 13, 2017. The Company calculated imputed interest at the rate of 8% per year on this note, and charged the amount of \$584 and \$1,274 to operations and credited additional paid-in capital during the three and six months ended June 30, 2017.

Note 5 – Related Party Transactions

During the six months ended June 30, 2017, the Company’s CEO, Gene Nelson, was paid the net amount of \$30,000 as partial payment of accrued salary.

Note 6 – Stockholders’ Equity

The Company is authorized to issue 50,000,000 shares of \$0.001 par value common stock. The Company has 10,000,000 common shares issued and outstanding as of June 30, 2017 and December 31, 2016.

During the six months ended June 30, 2017, the Company received cash of \$95 in satisfaction of common stock subscriptions receivable.

During the six months ended June 30, 2017, the Company calculated imputed interest expense on its notes payable in the aggregate amount of \$2,662; this amount was charged to additional paid-in capital.

Note 7 – Revenue

The Company has recorded one sale during the six months ended June 30, 2017. This sale, to an unaffiliated third party, was for 400 bottles of Creatinine Gel, and occurred in January 2017. There were no similar sales during the six months ended June 30, 2016.

Note 8 – Subsequent Events

None.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

OVERVIEW AND OUTLOOK

For the six months ended June 30, 2017, we had a net loss of \$39,231, compared to a net loss of \$45,091 for the six months ended June 30, 2016, respectively. Our accumulated deficit as of June 30, 2017 was \$130,014. These conditions raise substantial doubt about our ability to continue as a going concern over the next twelve months.

Results of Operations for the Three Months Ended June 30, 2017 and June 30, 2016

Revenues

The Company had no revenue during the three months ended June 30, 2017 and 2016.

General and administrative expenses

General and administrative expenses were \$18,468 for the three months ended June 30, 2017 compared to \$24,537 for the three months ended June 30, 2016. General and administrative expense for the three months ended June 30, 2017 and June 30, 2016 consisted primarily of officer salary, legal and accounting fees, filing fees and bank service charges.

Interest expense

The Company had interest expense of \$1,388 during the three months ended June 30, 2017; the Company had no interest expense during the three months ended June 30, 2016. Interest expense is attributable to interest on the company's convertible debt.

Net loss

For the reasons above, our net loss for the three months ended June 30, 2017 was \$19,856 compared to \$24,537 for the three months ended June 30, 2016.

Results of Operations for the Six Months Ended June 30, 2017 and June 30, 2016

Revenues

The Company had revenue of \$6,750 during the six months ended June 30, 2017; the Company had no revenue during the six months ended June 30, 2016.

Cost of goods sold

The Company had cost of goods sold of \$1,140 during the six months ended June 30, 2017; the Company had no cost of goods sold during the six months ended June 30, 2016.

General and administrative expenses

General and administrative expenses were \$42,179 for the six months ended June 30, 2017 compared to \$45,091 for the six months ended June 30, 2016. General and administrative expense for the six months ended June 30, 2017 and June 30, 2016 consisted of primarily of officer salary, legal and accounting fees, filing fees and bank service charges.

Interest expense

The Company had interest expense of \$2,662 during the six months ended June 30, 2017; the Company had no interest expense during the six months ended June 30, 2016. Interest expense is attributable to interest on the company's convertible debt.

Net loss

For the reasons above, our net loss for the six months ended June 30, 2017 was \$39,231 compared to \$45,091 for the six months ended June 30, 2016.

Liquidity and Capital Resources

The following table summarizes total current assets, liabilities and working capital at June 30, 2017 compared to December 31, 2016.

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Current Assets	\$ 2,381	\$ 3,580
Current Liabilities	\$ 119,495	\$ 84,220
Working Capital (Deficit)	\$ (117,114)	\$ (80,640)

During the six months ended June 30, 2017, the Company had cash used in operating activities of \$34,754. This consisted of Company's net loss of \$39,231, increased by imputed interest expense of \$2,662 and by net change in the components of working capital in the net amount of \$1,815. Also during the six months ended June 30, 2017, we had cash flow from financing activities in the amount of \$34,695 consisting of \$34,600 from the issuance of convertible notes payable and \$95 from the collection of a subscription receivable. There was no cash flow from investing activities during the six months ended June 30, 2017.

During the six months ended June 30, 2016, the Company had cash used in operating activities of \$3,825. This consisted of Company's net loss of \$45,091, decreased by net change in the components of working capital in the net amount of \$41,266. Also during the six months ended June 30, 2016, we had cash flow from financing activities in the amount of \$3,905 from the sales of treasury stock. There was no cash flow from investing activities during the six months ended June 30, 2016.

As of June 30, 2017 we had cash of \$101 and had working capital deficit of (\$117,114). We do not have sufficient working capital to pay our expenses for the next 12 months. Our plan for satisfying our cash requirements and to remain operational for the next 12 months is through sale of shares of our capital stock or convertible debt. We anticipate revenue during that same period of time, but do not anticipate generating sufficient amounts of revenues to meet our working capital requirements. We cannot assure you we will be successful in meeting our working capital needs.

Should we not be able to continue to secure additional financing when needed, we may be required to slow down or suspend our business activities or reduce the scope of our current operations, any of which would have a material adverse effect on our business.

Our future capital requirements will depend on many factors, including the development of our business; the cost and availability of third-party financing for development; and administrative and legal expenses.

We anticipate that we will incur operating losses in the next twelve months. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in their early stage of development. Such risks for us include, but are not limited to, an evolving and unpredictable business model; recognition of revenue sources; and the management of growth. To address these risks, we must, among other things, expand our customer base, implement and successfully execute our business and marketing strategy, respond to competitive developments, and attract, retain and motivate qualified personnel. There can be no assurance that we will be successful in addressing such risks, and the failure to do so could have a material adverse effect on our business prospects, financial condition and results of operations.

Satisfaction of our cash obligations for the next 12 months.

As of June 30, 2017, we had cash of \$101. Our plan for satisfying our cash requirements for the next twelve months is through sales-generated income, sale of shares of our common stock, third party financing, and/or traditional bank financing. We anticipate sales-generated income during that same period of time, but do not anticipate generating sufficient amounts of revenues to meet our working capital requirements. Consequently, we intend to make appropriate plans to secure sources of additional capital in the future to fund growth and expansion through additional equity or debt financing or credit facilities.

Going concern.

Our financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern, which contemplate the realization of assets and liquidation of liabilities in the normal course of business. We have incurred continuous losses from operations, have an accumulated deficit of \$130,014, and have working capital deficit of (\$117,114) as of June 30, 2017, and have reported negative cash flows from operations since inception. In addition, we do not currently have the cash resources to meet our operating commitments for the next twelve months. The Company's ability to continue as a going concern must be considered in light of the problems, expenses, and complications frequently encountered by entrance into established markets and the competitive nature in which we operate.

Our ability to continue as a going concern is dependent on our ability to generate sufficient cash from operations to meet our cash needs and/or to raise funds to finance ongoing operations and repay debt. There can be no assurance, however, that we will be successful in our efforts to raise additional debt or equity capital and/or that our cash generated by our future operations will be adequate to meet our needs. These factors, among others, indicate that we may be unable to continue as a going concern for a reasonable period of time.

Summary of product and research and development that we will perform for the term of our plan.

We are not anticipating significant research and development expenditures in the near future.

Expected purchase or sale of plant and significant equipment.

We do not anticipate the purchase or sale of any plant or significant equipment as such items are not required by us at this time.

Significant changes in the number of employees.

Assuming we are able to pursue revenue through the commencement of sales of products, we anticipate an increase of personnel and may need to hire employees. In the interim, we intend to use the services of independent consultants and contractors to perform various professional services when appropriate. We believe the use of third-party service providers may enhance our ability to control general and administrative expenses and operate efficiently.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results or operations, liquidity, capital expenditures or capital resources that are material to investors.

Recently Issued Accounting Standards

There are various other updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

Item 3. Quantitative and Qualitative Disclosure About Market Risk.

This item is not applicable as we are currently considered a smaller reporting company.

Item 4. Controls and Procedures.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit pursuant to the requirements of the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, among other things, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate, to allow timely decisions regarding required disclosure.

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, Gene Nelson, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on the evaluation, Mr. Gene Nelson concluded that our disclosure controls and procedures are not effective in timely alerting them to material information relating to us that is required to be included in our periodic SEC filings and ensuring that information required to be disclosed by us in the reports we file or submit under the Act is accumulated and communicated to our management, including our chief financial officer, or person performing similar functions, as appropriate to allow timely decisions regarding required disclosure, for the following reasons:

- The Company does not have an independent board of directors or audit committee or adequate segregation of duties;
- All of our financial reporting is carried out by our financial consultant;
- We do not have an independent body to oversee our internal controls over financial reporting and lack segregation of duties due to the limited nature and resources of the Company.

We plan to rectify these weaknesses by implementing an independent board of directors and hiring additional accounting personnel once we have additional resources to do so.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

We know of no material pending legal proceedings to which our company or subsidiary is a party or of which any of their property is the subject. In addition, we do not know of any such proceedings contemplated by any governmental authorities.

We know of no material proceedings in which any director, officer or affiliate of our company, or any registered or beneficial stockholder of our company, or any associate of any such director, officer, affiliate, or stockholder is a party adverse to our company or subsidiary or has a material interest adverse to our company or subsidiary.

Item 1A. Risk Factors.

This item is not applicable as we are currently considered a smaller reporting company.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

None.

Item 5. Other Information.

None.
